

R_dining

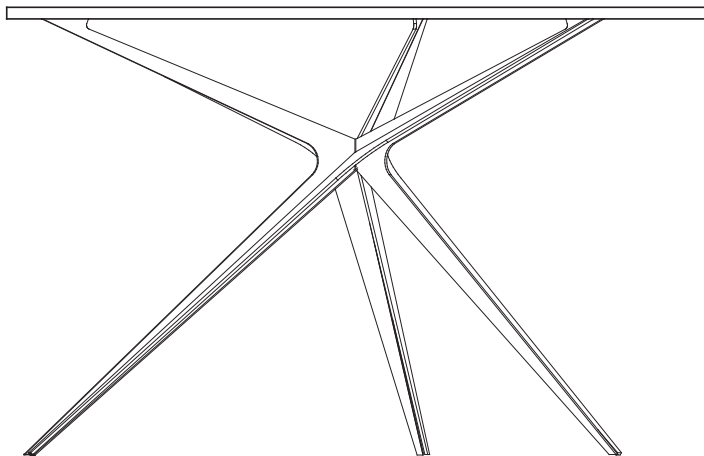

This round dining table merges oak wood top with steel frame legs.

The design of the leg was made with a similar state of mind as in the Lounge_02 lounge chair, which has a strong presence while being airy, lean and clean. Looking from different angle the legs appear to disappear due to its unique geometry.

The top size and material can be customized to the clients wish.

PRICE: from 12,000 NIS

*Will be finalized according to specifications
